

HOW TO BECOME A VELOVITA DISTRIBUTOR?

THERE ARE MANY COMPANIES LOOKING FOR DISTRIBUTORS LIKE VELOVITA, BUT BEFORE YOU STARTS A NEW BUSINESS THERE IS A FEW THINGS THEY SHOULD CONSIDER

My name is Steve Jackson and I am a founding member and leader with VeloVita. I have been an entrepreneur, network marketer, online marketer, eBook author and podcaster for many years. I enjoy the excitement of building a new business and finding new global opportunities. My main reasons is that new companies offer new and exciting possibilities. Also, it ticks all the boxes for me and gives me the financial freedom and the global independence I have always desired. This means I can choose where and how I live my life.

ABOUT BEING A VELOVITA DISTRIBUTOR

I have been building a global distributorship of passionate and motivated leaders in the US, Canada and shortly around the world. In many cases, my team members have found network marketing for the very first time. Meaning, becoming a VeloVita distributor is the very first time they have embark on running their own business. Taken the journey of a lifetime with me is going to be an exciting time in their lives.

This page will explain what you should consider before you decide to become a VeloVita distributor. I am not trying to put people off joining VeloVita as a distributor, but it is about you making the right decision for you. There will be a lot of time, money and energy wasted by everybody, if VeloVita is not the right fit for you.

I understand when people say to me that they would never join a network marketing business, because it's not possible to make money. The fact is joining any distributorship or business is hard-work and running a network marketing distributorship business is also hard-work. However, when somebody starts to realize that something is worth having it is also is worth working for. This is when many of us have a mindset change, which says, "maybe, just maybe network marketing is the solution to the big question of financial freedom".

So, if you are one of those individuals who has come to the conclusion that running a home based independent distributorship opportunity is for you. This is the next stage, where I will tell you more about the company VeloVita.

DISTRIBUTORSHIP OPPORTUNITIES

Before I even thought about joining VeloVita I went through the five key points that everyone should go through before joining any MLM / network marketing companies. This will make a large difference between choosing a good or a great company as well as success and failure of your business.

"WHEN YOU LOOK AT DISTRIBUTORSHIP OPPORTUNITIES LIKE VELOVITA FOR THE FIRST TIME"

THE FIVE KEY POINTS I WENT THROUGH BEFORE JOINING HOME BASED DISTRIBUTORSHIP LIKE VELOVITA:

The companies background and profile

It is true that we are in control of our own success. There is nobody going to do this business for you. This means work is required. It shouldn't really matter what companies we join, however it makes total sense to join companies that will still be around 20 years from now.

So, when I read the VeloVita reviews I was happy to find that:

- VeloVita are financially stable
- They had a record-breaking conversion rate from day one
- The companies owners were long established and self made network marketers Kosta Gara and Jeff Mack.

Kosta Gara

Kosta Gara is behind some of the most interesting and innovative products, companies and platforms in network marketing today. His methods have earned him hundreds of millions of dollars all over the world.

I truly believe that in life, everything happens for a reason. Life is a series of events, and decisions that will ultimately lead you to your destiny. Don't allow life to happen to you, rather create the life you desire and since you only have one chance, find a way to make it legendary!

Kosta Gara

Jeff Mack

Jeff Mack is a husband, a father, and a 30-year entrepreneur, with many companies in the network marketing industry. As a top front line distributor and leader for 22 of those years, Jeff worked tirelessly with teams in the US and around the world.

The best things in my life have been guided or made better by peers and mentors that have encouraged positivity and proactivity. A goal for me is to do the same for others.

VELOVITA PRODUCTS

VELOVITA

brān™
reimagined

Caramel
Macchiato

0.51fl.oz / 15 mL

WHAT IS ALL THE FUSS ABOUT VELOVITA PRODUCTS?

Well, for a start there is only one product called Brān Reimagined. It is full of nootropic compounds with 16 nutrients to fuel the most important organ of your body. Brān was made to immediately boost your mental energy, support positive thinking, improve focus, alertness, mood, and mental acuity.

In addition, I was looking for in a product line that was not too overpriced and have a money-back guarantee. The products should be something that customers use regularly, so something consumable. So, a consumable high quality product that the customer purchases monthly, but cannot be purchased in the supermarket.

VELOVITA DISTRIBUTORSHIP TRAINING

Personally, our main role as a distributor is to teach success attitudes, leadership, people skills, overcoming fears, goal-setting, communication skills, money skills, and the like.

The fact is there is many ways to run a VeloVita business, starting from simply speaking to family and friends, but the most preferred method is using social media or blogging, but whatever helps you towards success is the best method for you.

However, I would suggest that everyone VeloVita Launch training, because of its simple A, B, C structure, training material and videos.

The whole key to the training program is to give you the tools and knowledge to sell the products and build your own distributorship. We understand that it is one thing to sell the products, it maybe another for those who are new to home based opportunities to understand what to do next.

MOST OF THE BETTER OPPORTUNITIES SUCH AS VELOVITA OFFERS A LOT OF FREE TRAINING FOR THOSE WHO WANT IT. THERE IS ALSO TWICE WEEKLY ONLINE TRAINING FOR THOSE WHO WISH TO PARTICIPATE

THE VELOVITA MARKETING PLAN

IF YOU ARE NEW TO NETWORK MARKETING THIS IS GOING TO BE THE BIT WHERE YOU SAY, “I DIDN’T KNOW THAT WOULD HAPPEN”.

Most new to the business believe that family and friends will be jumping at the bite to join their business, but sadly that is not the case. Most people new to network marketing will start asking family and friends to join their, but in most cases will be getting a resounding “NO THANK YOU!”. Then they will blame the company, the products or there is too many consultants in my area.

The fastest way to fail in network marketing is to believe that sponsoring your family and friends will create success. There is a complex relationship between the need for duplication in your business and the marketing strategy of sponsoring family and friends. Yes, I feel that most of us agree that duplication should be the prime objective of network marketing, but why insist on promoting the assets of sponsoring family and friend when the failure rate is so high.

Well, the argument will be by advocates of this method, that the new VeloVita distributor needs to start somewhere and family and friends is the easiest starting point.

VeloVita I believe has tried to tackled this issue in some ways by promoting the concept of social selling or sharing the products rather than bothering friends by encouraging the member to be apart of the VeloVita brand by using the products in their daily lives.

Nevertheless, sharing through personal branding is just one method. In my opinion that is just the tip of the iceberg in regards to the fun ways of marketing a distributor with VeloVita. Thanks to the internet the world is out there waiting for you to ask them to join you in your journey with VeloVita.

Since beginning my journey with VeloVita I have managed to evolve and develop many different methods of marketing my business to the extent that I simply watch it grow without the issues associated with family and friends. And I am proud to say, that I have never sponsored family or friends to my business.

My downline consist of two types of people, ones that love the products and want to get them at a wholesale price and those who love the products and want to earn extra money from them.

OBJECTIVELY EVALUATING

OBJECTIVELY EVALUATING VELOVITA WAS TO MY BENEFIT

When I went through the five key point I began to see where I could go with VeloVita and what the real possibilities for success really were. I could see that long-term success towards financial freedom was going to be a reality, however work and dedication was going to be paramount if I wanted to be successful.

All the other elements were already in place such as outstanding the product line, a management team that was professional and capable, a VeloVita compensation plan that allowed everyone to get a piece of the pie and a company that I felt I could trust.

What is the reality of being in VeloVita?

I would firstly like to say that VeloVita is a great company to work with and everything works as it should do in such companies. However, I would guess that for some of the more traditional network marketers looking at VeloVita the social selling aspect could be it a bit unusual. However, if you have read anything else my me, you would realize that the internet is a part of our daily existence that we cannot disregard.

The fact is there is something for everyone in VeloVita, if you are a mother watching over the kids, a old school network marketer or a direct sales distributor looking a second stream income, VeloVita has something for you.
