# WHAT ARE THE BEST AFFILIATE PROGRAMS TO MAKE MONEY FAST ONLINE?

## IT IS STILL ONE OF THE BEST AND TOP PAYING AFFILIATE PROGRAMS IN THE WORLD, BUT IS IT TOO LATE TO PROMOTE CLICKBANK PRODUCTS ON THE INTERNET?

Many of my affiliate friends ask me all the time weather they can make money from ClickBank. Many tell me that ClickBank has been around for sometime and so has lost the edge over other affiliate programs. I am guessing the theory is that if a brand is overexposed they are less valued and if something is not valued the products won't convert as it did in the past. In some ways I would agree, new and innovative is always good, but classic quality seems to weather the test of time.

From my experience, the people who believe like that are normally the same ones that have not made any money on ClickBank. Those who feel they should make money fast from internet programs like ClickBank are truly disappointed. It is missing the point of running an online business using ClickBank as a resource. The keyword here is running a business, meaning this is a marathon, not a sprint. There is many reasons why people don't make money from ClickBank, such as choosing the wrong product, targeting the wrong audience or they simply don't know what they are doing.

There is so many things that a inexperienced affiliate marketer could be doing wrong to have a negative experience. Unfortunately, nobody likes to blame ourselves, even though many of us understand that we must be doing something wrong during the marketing process. In the past, when I finally asked other affiliates how they were making money, they simply said, "educations and training". It seem obvious that trying to start a new career without any skills or knowledge of the industry is a recipe for failure, but many of us do it everyday. So, consider any career or job that you have started in the past that needed no education. There are very few and the one you don't need to learn anything are not worth doing in the first place. From a university or college education to vocational school and apprenticeship training, success is directly connected to learning.

Unfortunately, success does happen over night and if you have no experience in online or in affiliate marketing failure is almost guaranteed. The key is always about educating yourself so you have the tools and understand how to make money and convert leads into cash.

# WHY IS CLICKBANK STILL ONE OF THE TOP PAYING AFFILIATE PROGRAMS?

## WISHING FOR SUCCESS AND MONEY IS NOT ENOUGH

Wishing for success and money is not enough. However, once you understand that you are not promoting ClickBank itself, it is a lot easier to understand why it is not possible to saturate the market with ClickBank. The fact is, ClickBank is a platform or facilitator for thousands of affiliate products, which means most if not all of the time you are not promoting ClickBank products. Apart from ClickBank university, I cannot think of another product that can be sold as a ClickBank products. The affiliate in this case promotes affiliate products that can be found in the ClickBank marketplace, so you are not promoting the marketplace, but products that are on the marketplace.

### The products vary from:

- Arts & entertainment
- As seen on TV
- Betting systems
- Business / investing

- Computers / internet
- Cooking, food & wine
- E-business and e-marketing
- Education
- Employment and jobs
- Fiction
- Games
- Green products
- Health and fitness
- Home and garden
- Languages
- Mobile
- Parenting and families
- Politics / current events
- Reference
- Self-help
- Software and services
- Spirituality, new age and alternative beliefs
- Sports
- Travel

As you can see, the range of products and programs are vast and so regardless what niche you are interested in, there is a niche for you. In addition the products are generally, digital products which mean the customer can buy them and receive or access the product straight away.

# HOW TO MAKE MONEY FROM HOME WITH CLICKBANK AND BECOME SUCCESSFUL?

There is many reasons for failing in ClickBank, but one proving method that optimizes the chances of success is:

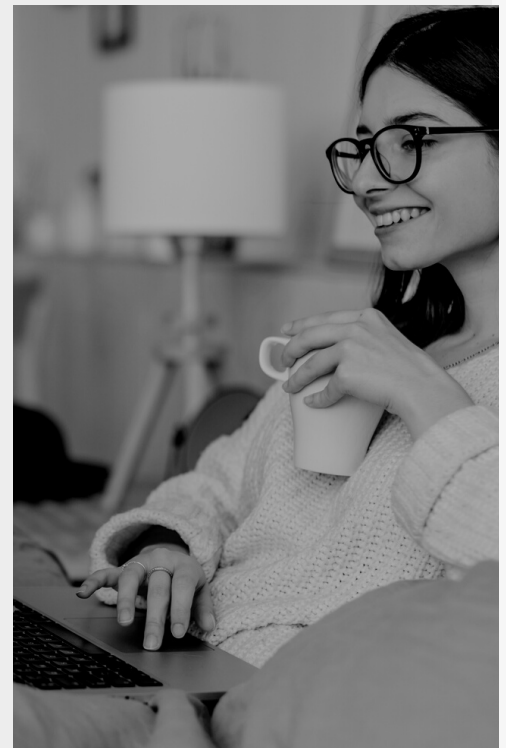

- 1.Researching ClickBank products until you find one that fits your niche
- 2.Stick with a product and don't keep jumping from one to the other

The key is to be systematic and methodical when searching and then sharing the products.

When you are systematic and methodical in our work, we are far more likely to find niche products that will gain the highest amount of traffic. This simply means, that when you are ready to take your time and optimize the niche you are interested in, the higher the conversion rate will be. Sadly, there is a high level possibility that you will fail and fail badly, until you learn the methods needed to succeed as a ClickBank affiliate. The ones that fail settle for the scrapes rather than the whole chicken. The income possibilities and how you maximize it sits somewhere between the product you promote and the amount of traffic that finds your website. If you are happy to earn a few dollars here and there then please do not allow me to diatribe you anymore. However,
